

Ceremony Enhancements

From Top Dog Productions

We Can Help You Create The Ceremony Of Your Dreams!

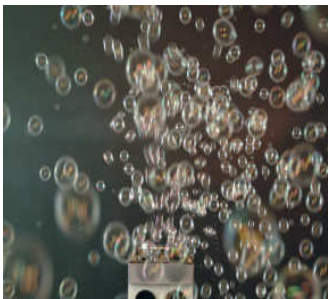

Professional Sound Services

Are you thinking of having musicians performing music for you reception? Planning to have friends and family members speaking? Do you have pre-recorded music you want to use for you ceremonial events? How about a wireless clip on, hands free microphone for the officiant? Ensure that your guests will hear every note, every reading, and of course “you may kiss the bride...” With our professional sound equipment, as well as a qualified sound technician, these items will come to life. And don’t worry about our equipment; it will be placed in inconspicuous places to ensure that it doesn’t show in your photos and/or videos. It will not ruin your beautiful wedding décor. We can also record the audio from the ceremony and provide a CD of that coverage.

Personalized Ceremony Planning

Do you have your dream ceremony planned out in your mind? We want to help you make that vision come to life. From the start we give you access to online planning where you can choose music and start to layout the many items included in your ceremony. Closer to your big day, we can sit down with you personally, and discuss each and every precise detail. The day of your wedding we arrive early and work with other vendors to layout everything you planned. We also provide 2 – long range “Walkie Talkie” devices for communication between vital resources, such as the limo or horse drawn carriage.

NEW FOR 2009!

Bubbles (Also Available For Your Grand Entrance At Reception)

Bubbles can be used to add a further touch of elegance and fun to any gathering. A fitting end to you perfected ceremony; hundreds of bubbles per minute can appear to fall from the sky while you and your fiancé walk down the aisle. We do our best to conceal the bubble machine, out of view, to create this special effect. We are the first in the area to offer this addition. Be the first to have this beautiful option at your wedding.

Confetti (Planned To Be Available Early 2009)

A blast of colorful paper falling from the sky; confetti will make an impact on your guests. Confetti can be ordered in any color or in any type including flutter, corkscrews, star burst streamers or comet tail streamers. The tissue is flame-retardant and biodegradable. They work well in reception halls with low ceilings and at bachelorette parties. This will add a new and different touch that your guests will cherish.
