

LIGHTING ENHANCEMENTS

Top Dog Productions can provide custom lighting solutions to set the mood of your reception and make your occasion memorable and unique. Color enhances emotions and responses. Your guests are always aware, even subconsciously, of lighting. We can help you create the perfect atmosphere in any room that transforms the ordinary into extraordinary. Enhance classic into classy when you accent your wedding color theme for a unique, dramatic and elegant look. Let our professional lighting services add beauty and grandeur to your event; giving your guests another reason to compliment your sophisticated wedding tastes.

Up-Lighting

Up-lighting can be the perfect decoration to enhance your theme! We can set the room to be a vibrant color all evening or watch the room fade through different colors seamlessly. Some options for up-lighting are:

- **Wall Washes:** The Entire Wall Is Blanketed In Light
- **Wall Spots:** Certain Areas Of The Wall Are Spotlighted (*Shown To The Right*)
- **Corner Washes:** Brighten The Corners Up With Brilliant Light
- **Under Table Lighting:** Great For Accenting Your Head Table

Monogram Projection

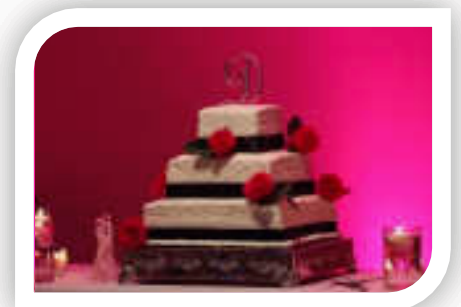

Enhance the look of the room with a stunning visual which will catch the attention of everyone in attendance. We will work with you to create a customized, one of kind, monogram pattern that will help to symbolize your special event. Some options for monograms are:

- **Static, Non Moving Monogram:** The image will remain positioned in the same place throughout the evening.
- **Rotating Monogram:** The image will rotate 360 degrees, at a slow or fast pace.
- **Scanning Monogram:** The monogram can move about the room, to specific points at different intervals and speeds.

Direct Pin Spot Style Lighting

With this style of lighting design we can direct your guest's attention to important sections in the room or spotlight decorative items such as your wedding cake or floral arrangements.
