## HOW TO USE THE PHOTO BOOTH IN CONJUNCTION WITH GUEST FAVORS:

When your guests arrive, they will see a 2" x 6" photo frame, at each place setting, on the table. Inside that frame, is a welcome message, a photograph or logo as well as instructions to visit our photo booth as much as they want throughout the evening. This document can be customized any way you would like. When the guests have their photo taken, for the first time in the booth, the frame is used to take their fun photo strip print home with them and remember your wedding day forever.
